

OFFICIAL ANNOUNCEMENT
Product Change Notification

PCN #: PCN009

Date: April 8th, 2005

Synopsis: New firmware for L-IP, L-Switch, L-Proxy, L-VIS, NIC709-xxx
Type of change: Software: yes Hardware: no Documentation: no
Product Affected: L-IP, L-Switch, L-Proxy, L-VIS, NIC709-xxx
Firmware version: all
Effectivity: immediate

Contents of Change:

There is updated firmware for the L-IP, L-Switch, L-Proxy, L-VIS, NIC709-xxx product line. The new firmware together with release notes can be downloaded from the following website http://www.loytec.com/english/download/overview.htm

The new firmware fixes some minor issues and makes the products fully compatible with the ANSI/EIA-709.1B-2000 protocol standard. Please see the release notes on our website for the specific product.

Action required:

All devices need to be upgraded with the latest firmware in order to make the products fully compatible with the ANSI/EIA-709.1B-2000 protocol standard. Please use the LSU tool to download the new firmware via the serial port or the LSD Tool to download the new firmware via the network. The LSU Tool can be downloaded from http://www.loytec.com/english/download/lip.htm. The new firmware is backward compatible with previous firmware versions. If the device was commissioned the device must be re-commissioned after the firmware upgrade.
