

Press release

Vienna, Austria, July 6th, 2011

LOYTEC hosts innovative building automation solutions:

Buildings under Control Symposium 2011, October 19th to 20th in Vienna, Austria

LOYTEC electronics, internationally recognized manufacturer of innovative building automation solutions, is pleased to announce the third Buildings under Control Symposium, which will be held in Vienna, Austria, from October 19th to 20th, 2011. The event targets an audience range of engineering and development people to sales, marketing and consulting professionals from around the world. Industry experts for intelligent, energy efficient automation and compatible control solutions for buildings will converge at the symposium. LOYTEC is proud to host this successful, popular meeting point for the building automation industry.

The Buildings under Control Symposium 2011 will highlight highly innovative room automation solutions with L-ROC, advanced lighting control with L-DALI, web based multi-functional building management solutions with L-INX Automation Servers and L-WEB, intelligent network infrastructure and much more. Dr. Peter Palensky, acknowledged expert in automation networks from the Austrian Institute of Technology is the key note speaker for the event.

Venue of the Buildings under Control Symposium will be Tech Gate Vienna, Vienna's science and technology park, situated directly at the river Danube with a breathtaking view of the city of Vienna. As the symposium is addressing an international audience, the conference language will be English. In addition to the discussion forum, the symposium will offer many opportunities for exchange of ideas, first-hand information, technical discussions and networking. Those who are interested will find

About LOYTEC:

Founded in 1999, LOYTEC electronics GmbH today ranks among the leading European providers of intelligent network infrastructure products for building automation. There LOYTEC sets to open and standardized communication protocols exclusively. LOYTEC develops, manufactures and distributes to the world router solutions, embedded Automation Servers, DALI lighting controls, graphic user interfaces, touch panels and gateways. Primary focus is on network solutions for buildings and real estate. Methods provided are remote access and notification, as well as functions for data acquisition, information viewing and data storage. The LOYTEC system is based on a protocol independent approach for decentralized alarming, scheduling and trending.

Product development and manufacturing are located at the Austrian headquarters in Vienna. Particular emphasis is laid on careful and top-quality execution. LOYTEC is certified according to ISO 9001 since 2004. In addition the company has branch offices in France (software development) and Germany (sales) and a subsidiary in the USA. LOYTEC supplies to more than 80 countries around the world. Export rate is 99.5 %. Strong partnerships with leading industrial companies and intensive research work in cooperation with universities result in innovative products for customers all around the world. Numerous national and international awards confirm the run of success of this Austrian high tech provider.

LOYTEC products are found in buildings like the Uniqa-Tower or the T-Center in Vienna, the main train station and the German parliament (Reichstag) in Berlin, the ThyssenKrupp Quarter in Essen, the regional bank Baden-Württemberg in Stuttgart, the Esprit Arena Düsseldorf, one of the most modern multifunctional stadiums of Europe, the Gallileo Tower in Frankfurt, the Rheinhallen/RTL-Studios in Cologne, the biggest cruise ship of the world, the “Oasis of the Seas”, the fair center Jaarbeurs Utrecht in the Netherlands, Il sole 24 ore, the headquarters of Italy’s leading financial magazine in Milano, the Governor Rockefeller Empire State Plaza in Albany/New York State, the world’s most spectacular sport arena, the Dallas Cowboys Football Stadium in Arlington/Texas, the Wangjing International Commercial Center and the China Reinsurance in Beijing, the Ernst & Young Headquarters in Sidney and many others more.
